Tools: Git/GitHub, VS Code, IntelliJ IDEA

Libraries: pandas, NumPy, Matplotlib, Seaborn, Scikit-learn (sklearn)

Communication Languages: Fluent in English, Hindi, and Bengali

PROJECTS

Share Life Now | *MongoDB Atlas, Express Js, React Js, Node Js, MERN stack*

 [Github Link](#)

- A team project built at Diversion 2023. Developed a website for blood donation, enabling users to see nearby hospitals and blood donors' and acceptors' details.
- This blood donation website helps people find blood donation centers and schedule appointments to donate blood. In times of crisis, such as natural disasters or mass casualty events, the website helps coordinate blood donations and ensure hospitals have enough blood on hand to treat patients.

FlickFolio: Your Ultimate Movie Companion | *ReactJS, OMDb API*

 [Live link](#)

- FlickFolio is an interactive and user-friendly web application designed for movie enthusiasts who want a seamless and engaging experience when exploring films. With FlickFolio, you can search, browse, and manage your favorite movies effortlessly, all while enjoying a visually appealing and intuitive interface.
- This web app is built using ReactJs, and the OMDb API has been used to provide a realtime search feature.
- The project offers a horizontal scroll bar, allowing users to explore the movie list with sideways scrolling.

EXPERIENCE

Participated in Diversion 2023, Kolkata | *Web Developer*

2023

- I, along with our team, developed a comprehensive, full-stack blood donation website during the Diversion Hackathon 2023.

LEADERSHIP AND VOLUNTEERING

IEM-UEM Marathon: I acted as a coordinator at IEM-UEM Marathon.

IEMPACT: I volunteered at college annual fest IEMPACT.
